

Contents

PART I INTRODUCTION

1 The Economic Way of Thinking 3

The Emergence of a Market	4
The Economic Problem	6
The Scope of Economics	10
Developing and Using Economic Theories	11
Positive and Normative Economics	14
Microeconomics and Macroeconomics	15
PERSPECTIVES: Adam Smith	8
PERSPECTIVES: What Do Economists Do?, Rudolph White, University of Georgia	12

2 Scarcity and Production Possibilities 19

The Implications of Scarcity	20
The Production Possibilities Curve	21
Linear Production Possibilities Curves	21
Bowed Production Possibilities Curve	22
Points Inside and Outside the Curve	23
The Choice Between Investment and Consumption	24
The Choice Between Private and Public Goods	26
Shifting the Production Possibilities Curve	28
Substitution of Resources	28
Cost Sharing	28
Specialization of Labor	28
Economies of Scale	29
Trade	29
Money as a Resource	29

Taking Advantage of Comparative Advantage	31
The Circular Flow of Income	32
Appendix: Graphic Analysis	39
<i>PERSPECTIVES: David Ricardo</i> 30	

3 The Elements of Supply and Demand 45

The Competitive Market Process	47
The Market Setting	47
Competition Among Buyers and Among Sellers	47
Supply and Demand: A Market Model	49
The Elements of Demand	49
<i>Demand as a Relationship</i>	49
<i>Demand as a Table or Graph</i>	49
<i>The Slope and Determinants of Demand</i>	50
The Elements of Supply	53
<i>Supply as a Table or Graph</i>	54
<i>The Slope and Determinants of Supply</i>	54
Market Equilibrium	56
<i>Market Surpluses</i>	56
<i>Market Shortages</i>	58
<i>The Effect of Changes in Demand and Supply</i>	58
The Efficiency of the Market Model	60
Nonprice Competition	61
Competition in the Short Run and the Long Run	65
Shortcomings of Competitive Markets	67
<i>PERSPECTIVES: Price Floors and Price Ceilings</i> 62	
<i>PERSPECTIVES: The Effect of Airline Deregulation on Travel Safety, William F. Shughart II, University of Mississippi</i> 69	

4 The Public Sector 77

An Overview of the Public Sector	78
----------------------------------	----

Contents

Minimal Government: Protection of Property	85
Government Production of Public Goods	87
External Benefits	88
External Costs	89
Government Protection of Common Access Resources	90
Air and Water	92
Endangered Species	93
Public Property	94
Government Provisions of Income Security and Health Insurance	94
Government Stabilization of the Economy	95
The Shortcomings of Government Action	96
PERSPECTIVES: Sources of Income in the Public Sector	84
PERSPECTIVES: The Threatened Social Security System	90
DIALOGUE: The Rush to Privatize, <i>New York Times</i> Editors	96
Why Privatize?, <i>Stuart Butler, Heritage Foundation</i>	97

PART II
PRINCIPLES OF CONSUMER BEHAVIOR AND THE THEORY OF DEMAND

5	Principles of Rational Behavior	105
	Rationality: A Basis for Exploring Human Behavior	106
	The Acting Individual	106
	Rational Behavior	107
	Rational Decisions in a Constrained Environment	107
	Choice	108
	Cost	110
	Maximizing Satisfaction: Cost-Benefit Analysis	111

The Effects of Time and Risk on Costs and Benefits 115

What Rational Behavior Does Not Mean 118

PERSPECTIVES: Is Self-Love Selfish? 108

PERSPECTIVES: Value of Life? From \$8.37 to \$10 Million, *William R. Greer, New York Times* 112

PERSPECTIVES: John Stuart Mill 118

6 Consumer Choice and Demand 123

Predicting Consumer Demand 124

Rational Consumption: The Concept of Marginal Utility 125

 Achieving Consumer Equilibrium 125

 Adjusting for Differences in Price and Unit Size 126

Changes in Price and the Law of Demand 128

From Individual Demand to Market Demand 130

Elasticity: Consumer Responsiveness to Price Change 132

 Analyzing Total Consumer Expenditures 133

 Determining Elasticity Coefficients 134

 Elasticity is Not the Same as Slope 136

 Applications of the Concept of Elasticity 137

Determinants of the Price Elasticity of Demand 139

 Substitutes 139

 Time 140

Changes in Demand 141

Irrationality and the Law of Demand 144

Appendix: Consumer Preferences and Possibilities 149

PERSPECTIVES: William Stanley Jevon 129

PART III
COSTS AND THE FIRM IN THE MARKET ECONOMY

7	Business Organizations 157	
	Types of Business Organizations	158
	Proprietorships 159	
	Partnerships 159	
	Corporations 162	
	Methods of Raising Financial Capital	164
	Bonds 164	
	Preferred Stock 165	
	Common Stock 167	
	Calculating Business Profits and Losses	168
	The Bigness of Business	172
	PERSPECTIVES: Why Do Firms Exist? 160	
	PERSPECTIVES: Reading the Stock Page 166	
	PERSPECTIVES: Corporations Are Not Persons, Ralph Nader, Corporate Accountability Research Group, and Carl J. Mayer, Harvard Law School 170	
8	Cost and Producer Choice 177	
	Explicit and Implicit Costs	178
	The Cost of Education 179	
	The Cost of Bargains 179	
	Marginal Cost	181
	Rational Behavior and Marginal Cost 181	
	The Law of Diminishing Returns 182	
	The Cost-Benefit Tradeoff	186
	The Costs and Benefits of Fishing 186	
	The Costs and Benefits of Preventing Accidents 187	

Price and Marginal Cost: Producing to Maximize Profits	188
From Individual Supply to Market Supply	192
PERSPECTIVES: Do Sunk Costs Matter?	180
PERSPECTIVES: Sunk Costs in the Railroad Industry, <i>Clinton Whitehurst, Clemson University</i>	185
PERSPECTIVES: The Production Function in Pictures	190

9

Costs in the Short Run and in the Long Run 197

Fixed, Variable, and Total Costs in the Short Run	198
Marginal and Average Costs in the Short Run	200
Marginal Cost	200
Average Fixed Cost	201
Average Variable Cost	204
Average Total Cost	204
Marginal and Average Costs in the Long Run	205
Economies of Scale	205
Diseconomies of Scale	206
Average and Marginal Costs	207
Individual Differences in Average Cost	209
Shifts in Average and Marginal Cost Curves	211
Appendix: Choosing the Most Efficient Resource Combination: Isoquants and Isocosts	215
PERSPECTIVES: The Role of the Entrepreneur in the Economy, <i>Calvin Kent, Baylor University</i>	202
PERSPECTIVES: Dealing With the Very Long Run	208

10	Perfect Competition 219	
	The Four Market Structures	220
	Perfect Competition 220	
	Pure Monopoly 221	
	Monopolistic Competition 222	
	Oligopoly 223	
	The Perfect Competitor's Production Decision	224
	The Production Rule: $MC = MR$ 224	
	Changes in Market Price 225	
	Maximizing Short-Run Profits	226
	Minimizing Short-Run Losses	229
	Producing Over the Long Run	231
	The Long-Run Effect of Short-Run Profits and Losses 231	
	The Effect of Economies of Scale 232	
	The Efficiency of Perfect Competition: A Critique	234
	The Tendency Toward Equilibrium 234	
	Surpluses and Shortages 237	
	Marginal Benefits Versus Marginal Costs 237	
	PERSPECTIVES: Alfred Marshall 228	
	PERSPECTIVES: Price Takers Versus Price Searchers 235	
	PERSPECTIVES: Contestable Markets 240	
11	Pure Monopoly 245	
	The Origins of Monopoly	246
	The Limits of Monopoly Power	249
	Equating Marginal Cost With Marginal Revenue	251

Short-Run Profits and Losses	254
Production Over the Long Run	256
The Comparative Inefficiency of Monopoly	258
Price Discrimination	261
Perfect Price Discrimination	263
Discrimination by Market Segment	265
The Total Cost of Monopoly	266
PERSPECTIVES: Joan Robinson	248
PERSPECTIVES: Taxing Monopoly Profits	257
PERSPECTIVES: Monopolies of "Goods" and "Bads"	264

12 Imperfect Competition 271

Monopolistic Competition	273
Monopolistic Competition in the Short Run	273
Monopolistic Competition in the Long Run	274
Oligopoly	276
Theories of Price Determination	276
<i>The Oligopolist as Monopolist</i>	278
<i>The Oligopolist as Price Leader</i>	278
Price Stability and the "Kinked" Demand Curve	283
The Oligopolist in the Long Run	284
Cartels: Monopoly through Collusion	285
Incentives to Collude and Chisel	285
Government Regulation of Cartels	289
Antitrust Legislation	289
The Sherman Act	290
The Clayton Act	290
The Federal Trade Commission Act	291
The Purposes and Consequences of Antitrust Laws	291

PERSPECTIVES: The Consequences of Treble Damages in Antitrust Cases	277
PERSPECTIVES: Price-Fixing: A Real-World Case	286
DIALOGUE: The NCAA: A Cartel in Sheep's Clothing, <i>Gary Becker, University of Chicago</i>	280
Why the NCAA Does Not Exploit Athletes, <i>E. Thomas Sullivan, Washington University</i>	281

13 Business Regulation 295

Major Federal Regulatory Agencies	297
The Interstate Commerce Commission (ICC)	297
The Federal Trade Commission (FTC)	298
The Federal Communications Commission (FCC)	298
The Federal Energy Regulatory Commission (FERC)	299
The Nuclear Regulatory Commission (NRC)	299
The Securities and Exchange Commission (SEC)	300
The Food and Drug Administration (FDA)	302
The Occupational Safety and Health Administration (OSHA)	302
The Public Interest Theory of Regulation	302
Regulation to Capture Externalities	303
Regulation to Curb Monopoly	303
The Special Case of the Natural Monopoly	305
Regulation of Destructive Competition	306
The Evidence of Regulation	307
The Economic or Private Theory of Regulation	309
The Supply and Demand for Regulation	311
Regulation as a Public Good for Industry	312
Regulation as Taxation	313
The Deregulation Movement	314
Appendix: A Graphic Analysis of Natural Monopoly	320

PERSPECTIVES: Is It Time to Retire Robinson-Patman?, *Robert E. Weigand, University of Illinois at Chicago* 300

PERSPECTIVES: The Breakup of AT&T, *William F. Shughart II, University of Mississippi* 310

PERSPECTIVES: Changes in Regulatory Policy at the FTC, *Bruce Yandle, Clemson University* 315

PART IV
RESOURCE MARKETS

14 The Competitive Labor Market 329

The Demand for and Supply of Labor 331

 The Demand for Labor 331

 The Supply of Labor 333

 Equilibrium in the Labor Market 335

Why Wage Rates Differ 339

 Differences in Nonmonetary Benefits 340

 Differences Among Markets 341

 Differences Among Workers 342

Legislating Wage Rates: The Minimum Wage 345

 The Effect of Minimum Wage Laws on Employment 345

 Social and Nonmonetary Effects of Minimum Wage Laws 346

 The Political Support for Minimum Wage Laws 346

PERSPECTIVES: Better Housing for Migrant Workers—Legislating Nonmonetary Benefits 344

DIALOGUE: Raise the Minimum Wage, *Edward M. Kennedy, U.S. Senate* 336

 The Effect of Minimum Wages on Worker Benefits, *Walter Wessels, North Carolina State University* 337

15 Monopsonies and Unions 351

The Monopsonistic Employer	352
The Cost of Labor	353
The Monopsonistic Hiring Decision	355
Employer Cartels: Monopsony Power Through Collusion	357
The Inefficiency of Monopsony	361
The Employee's Market Power	363
Unions	364
Union Strength in the United States	365
Using Union Power to Raise Wages	367
The Efficiency of Unions	370
PERSPECTIVES: The Development of U.S. Labor Law, <i>John Warner, Clemson University</i>	364
PERSPECTIVES: Employment at Will, <i>Stephanie Saul, Newsday</i>	370
DIALOGUE: Sex Discrimination: A Market Information Problem, <i>Adele Ernst Wick, Tulane University</i>	358
Sex Discrimination: A Free Market View, <i>Catherine England, Cato Institute</i>	359

16 Rent, Interest, and Profit 377

The Demand for Nonhuman Resources	378
The Firm's Demand	379
The Market Demand	380
Economic Rent	382
Common Economic Rent	384
Rent Seeking	386
Interest	386
The Supply of Lendable Funds	388
The Demand for Lendable Funds	388
The Equilibrium Interest Rate	390

The Effects of Risk and Inflation	391
Economic Profit	393
PERSPECTIVES: Thomas Malthus	382
PERSPECTIVES: Henry George and the Land Tax	387
PERSPECTIVES: Usury Laws	390

17 Poverty and Poverty Relief 397

Distribution of Income in the United States: Some Facts	398
Determining the Poverty Level	402
The Official Definition	402
Shortcomings of the Official Statistics	403
The Causes of Poverty	404
Low Productivity	405
Sexual and Racial Discrimination	405
Low Aggregate Demand	408
Choice of Life Style	409
The Basis for Government Relief Programs	409
Poverty Relief as a Public Good	409
Redistribution of Income as Social Insurance and Political Reward	410
Methods of Relieving Poverty	411
In-Kind Transfers	411
Food 411 Housing 412 Education 413	
Cash Transfers	416
Job Training	417
Problems of Poverty Relief	417
The Difficulty of Overcoming Poverty	420
Appendix: Cash Versus In-Kind Transfers	426
PERSPECTIVES: More on the Disincentives of Poverty Relief	400
PERSPECTIVES: What's Leaving Children Poor?, Victor Fuchs, Stanford University	414

DIALOGUE: The Myth of the Elderly Poor, *Robert D. Hershey, Jr., New York Times* 406

The Misuse of Statistics on the Elderly Poor, *Paul Davidson, Unive of Tennessee, Knoxville* 407

PART V

APPLICATIONS OF MICROECONOMIC THEORY

18 Market Failures: External Costs and Benefits 431

External Costs and External Benefits

External Costs 433

External Benefits 435

The Pros and Cons of Government Action

Methods of Reducing Externalities

Persuasion 440

Assignment of Property Rights 441

Government Production 441

Taxes and Subsidies 442

Production Standards 444

Choosing the Most Efficient Remedy for Externalities

PERSPECTIVES: The Emergence of Modern Property Rights in England 438

PERSPECTIVES: Emerging Markets in Pollution Rights 442

19 Government Controls: Excise Taxes, Price Controls, and Consumer Protection 449

Who Pays the Tax?

Price Controls

The Case for Price Controls 453

Unearned Profits 453 Administered Prices 453 Monopoly Power 453

The Case Against Price Controls	454
Shortages and the Effective Price of a Product	455
Black Markets and the Need for Rationing	456
Consumer Protection	459
The Case for Consumer Protection	460
<i>External Benefits</i> 460 <i>External Costs</i> 461 <i>Monopoly</i>	
<i>Power</i> 462 <i>Information Costs</i> 463	
The Case Against Consumer Protection	463
<i>Competition as a Form of Consumer Protection</i> 463 <i>Differences in</i>	
<i>Risk Taking</i> 464 <i>The Needs of the Poor</i> 465	
PERSPECTIVES: Water Rights and Water Markets, Terry L. Anderson, Montana State University	458
PERSPECTIVES: Seat Belt and Air Bag Laws, Robert Valero, U.S. Department of Transportation	465

20 **Agriculture and Government Agricultural Policy 469**

Short-Run Problems of Farming	471
Long-Run Problems of Farming	473
The Price Support Program	474
The Creation and Purchase of a Surplus	475
Disposal of the Surplus	477
Acreage Allotments and Set-Aside Programs	478
Acreage Allotments	480
Soil Bank and Set-Aside Programs	480
Payment in Kind (PIK)	481
The Target Price System	481
The Long-Run Effects of Government Agricultural Programs	482
Farm Programs as a Method of Income Distribution	483
PERSPECTIVES: A Lemon of an Agricultural Policy, James Bovard, Cato Institute	476

21 Public Choice: The Economics of Government 487

The Central Tendency of a Two-Party System	487
The Economics of The Voting Rule	490
The Inefficiencies of Democracy	491
Median Voting Preferences	493
The Simple-Majority Voting Rule	493
Political Ignorance	495
Special Interests	498
Cyclical Majorities	498
The Efficiencies of Competition Among Governments	499
The Economics of Government Bureaucracy	500
Profit Maximization	501
Size Maximization	502
Waste Maximization	502
Making Bureaucracy More Competitive	503
PERSPECTIVES: The Mathematics of Voting and Political Ignorance, Gordon Tullock, University of Arizona 490	
PERSPECTIVES: Prisoner's Dilemma: Why People Cooperate, James Gleick, New York Times 496	

**PART VI
THE INTERNATIONAL ECONOMY**

22 International Trade 511

The Balance of Payments	511
Collective Gains from Trade	511
The Distributional Effects of Trade	521

Gains to Exporters	523
Losses to Firms Competing with Imports	524
The Effects of Trade Restrictions Such as Tariffs and Quotas	530
The Case for Free Trade	533
The Case for Restricted Trade	535
The Need for National Security	536
Other Arguments	537
PERSPECTIVES: The Balance on Current Account, <i>Edward L. Hudgins, Heritage Foundation</i>	514
DIALOGUE: The Case for Textile Production, <i>James C. Self, Greenwood Mills</i>	526
The Case Against Textile Protection, <i>Richard B. McKenzie, Clemson University</i>	527

23 International Finance 545

The Process of International Monetary Exchange	546
International Exchange Rates	547
The Exchanges of National Currencies	553
Determination of the Exchange Rate	555
Market Adjustment to Changes in Money Market Conditions	557
Control of the Exchange Rate: the Fixed or Pegged Rate System	559
Monetary Adjustment Under the Fixed Rate System	563
Gold Reserves	564
Currency Reserves	564
The International Monetary Fund (IMF)	565
Currency Swaps	565
Special Drawing Rates (SDRs)	566
Correcting a Persistent Balance of Payments Deficit	567
The Demise of the Fixed Rate System	569

PERSPECTIVES: International Economics Talks: A Who's Who, *Peter T. Kilborn, New York Times* 550

PERSPECTIVES: American Competitiveness and the Overlooked Capital Account Surplus 560

PERSPECTIVES: American Competitiveness and the Balance of Trade 570

24 International Trade and the Macroeconomy 577

The Keynesian Perspective 578

The Circular Flow of Income 579

Changes in Aggregate Demand and Supply 581

The Exchange Rate System 582

The Monetarist Perspective 584

The Supply-Side Perspective 591

International Complications 592

Exchange Rates 593

DIALOGUE: Twin Deficits: The Dangers, *Russell Shannon, Clemson University* 586

Foreign Trade and Economic Health: *William R. Allen, UCLA* 587

25 Comparative Economic Systems 597

Economic Systems 599

Capitalism and Its Critics 600

Marxian Communism 600

Soviet Communism 603

Leninism 604

Stalinism 605

Democratic Socialism 608

The Effects of Nationalization 609

The Effects of Economic Planning 612

PERSPECTIVES: The Competitive Japanese Economy, *Katsuro Sakoh, Johns Hopkins University* 601

PERSPECTIVES: A Traveller's View of Emerging Capitalism in China, *Lawrence S. Moss, Babson College* 606

PERSPECTIVES: Yugoslavia: A Modified Communist Economy, *Russell Shannon, Clemson University* 610

26 Economic Growth and Development 617

Prerequisites for Growth and Development	618
Characteristics of Developing Countries	620
Income	620
Economic Growth Versus Population Growth	622
Social Services	624
Agriculture and Technology	625
Theories of Economic Development	626
Classical Theory	627
Marxist Theory	627
Rostow's Takeoff Theory	627
Other Theories	628
Obstacles to Economic Development	629
Overpopulation	629
<i>Population Doubling</i>	630
<i>Urbanization</i>	630
<i>Food Shortages</i>	631
Lack of Infrastructure	631
<i>Schools</i>	632
<i>Roads</i>	632
<i>Other Facilities</i>	632
Other Obstacles	633
<i>Low Savings Rate</i>	633
<i>Limited Range of Exports</i>	633
<i>Sociocultural Factors</i>	634
Remedies for Economic Underdevelopment	634
Foreign Aid	635
Other Solutions	637
PERSPECTIVES: The Value of Children in Developing Countries, <i>Martin Snitzer, Virginia Tech</i> 629	
PERSPECTIVES: <i>Harry Gordon Johnson</i> 636	
Appendix: Nobel Laureates in Economics	A-1
Glossary	G-1
Index	I-1
